

FirstDevs

White Paper

v1.1

This white paper introduces the main ideas and principles of operation of the FirstDevs. The document describes the FirstDevs Platform; FirstDevs Arcade; FirstDevs Tournaments; FirstDevs Rewards; FirstDevs NFTs;

1. Introduction

Firstdevs.net will be operated using the \$firstdevs XRPL token.

Purpose: Partner with developers to test, share, and earn from their creations on the FirstDevs Arcade and incentivize top players through a pay to play to earn economy.

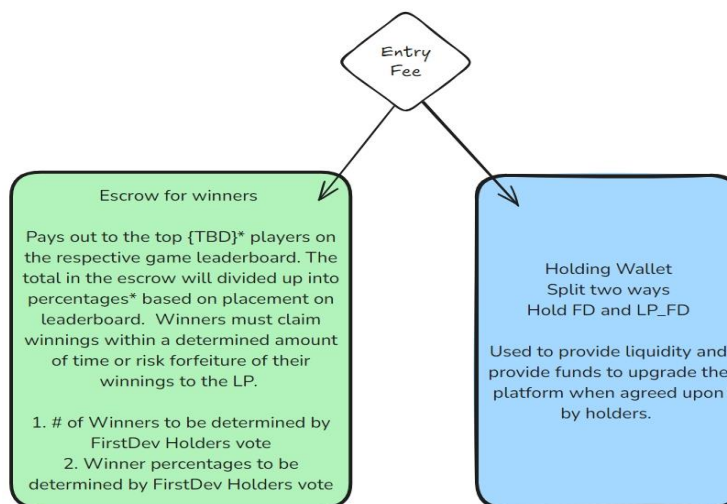

Mission: Create an ecosystem where creativity and technology intersect for mutual benefit of the creator and most dedicated players.

FirstDevs will provide a platform for devs to showcase their games, projects and/or tools and drive value through player entry fees.

2. Services

2.1 FirstDevs Arcade

A browser gaming arcade for project testing and building trust with the community. The Arcade will provide a decentralized way for players to enjoy new games and creators to interact with their communities. An entry fee will cost 0.25 RLUSD which will provide a user with 1 token for use in the arcade. Games will cost a minimum of 1 token for 1 play. The number of tokens required to play can be set by the game creator.

2.2 FirstDevs Tournaments

Game creators can create recurring tournaments where players compete for the top spots on the leaderboard in order to take a portion of the winner's pot. The portion will depend on placing on the leaderboard and the percentage determined by the FirstDevs holders.

2.3 FirstDevs Rewards

Tournament winners will receive \$FirstDevs as payment when the tournament ends.

2.4 FirstDevs NFTs

Provide crowdfunding for new games/projects and later expand to fund development tools and AI services. NFT holders can get a limited number tournament entries depending upon rarity.

Voting:

FD holders control key platform decisions. FD holders decide on reward splits and potential token burns.

Future Developments:

Burning: Possible micro-burn of FD post-tournament, community decided.

Expansion: Grow from arcade to a broader tool development platform. NFTs for games.

Game Assets.

Conclusion: FirstDevs aims to be a key space for developers, evolving through community input.

Note: This document will evolve with community feedback and performance insights.
